

Explore the past in the present

Nestled on the rolling banks of the Rappahannock River is the picturesque town of Fredericksburg, Virginia. Today it is referred to as “America's Most Historic City,” while the neighboring county of Spotsylvania is known as the “Crossroads of the American Civil War.”

Four major battles took place in these areas (Fredericksburg, Chancellorsville, Spotsylvania and the Wilderness) leaving behind acres of significant sites.

The historical district of Old Towne Fredericksburg is also home to many buildings that bore witness to some of the most intense fighting of the conflict, only to rise out of the ruins following the reunification of the country.

ALL-ACCESS BATTLEFIELD TOURS

Specializing in wheelchair tours to Civil War battlefield sites in Fredericksburg and Spotsylvania, VA

Call 540.845.2767 or visit us online at
www.pinstripepress.net/AABT.html

AABT is a Limited Liability Company

Who are we?

ALL-ACCESS BATTLEFIELD TOURS (LLC)

were designed especially for wheelchair travelers who wish to fully explore and experience the historic landmarks and hallowed grounds of the Fredericksburg and Spotsylvania areas. Our all-accessible individual or group tours take visitors, their families and friends directly to the sites while moving at their own pace.

ACCESSIBILITY EQUIPMENT

In order to provide a more enjoyable expedition, our visitors have the option to be transferred to our custom travel wheelchairs that feature special wheels and canopies. These rugged chairs, combined with portable ramps, enable our visitors to traverse fields, trails and roads that are otherwise inaccessible. Safety is our top priority.

AABT GUIDES

Our unique staff includes local Civil War authors, historians, film producers and battlefield preservationists who have spent their lives studying and sharing the stories of the Civil War in Central Virginia. Each experience includes the highest quality tours as well as handouts specific to each location.

How does it work?

Our goal is to make sure that visitors go where they want to go, see what they want to see, and experience what they want to experience.

- All tours must be reserved at least 2 weeks in advance. Contact AABT for schedule availability. (Weekends only)
- Our guides meet and greet patrons on site, at their location (home or hotel), or at one of the area's three Visitor Centers.
- Tours begin on site, or depart via caravan to other locations. Access-equipment transported by guides.
- Length of tours are based on the number of stops. Most locations take at least 1.5-2 hours for all-accessibility tour.

As you consider our programs, please understand that not all of these facilities and locations are highly developed for accessibility. We have created these special tours to ensure that our visitors experience as much of the historical splendor as possible in the safest and most comfortable manner.

Tours may include:

Visit our website for links to National Park Service location histories and descriptions.
